Hi, I'm Lucretia Maswabela.

Professional Summary

Results-driven and collaborative professional with a robust foundation in IT environments. Armed with an Advanced Diploma from the University of Johannesburg, I embarked on my professional journey in 2021. Eager to broaden my expertise within the Information Technology Industry, my focus lies on securing a role as a Junior System Developer, Junior System Tester, System Administrator, Database Administrator, or engaging in IT internships and graduate programs. Known for my adeptness as a team player, I thrive in both collaborative and independent work settings. A quick learner with a solid grasp of computer abilities, I am well-equipped to handle assignments beyond basic requirements.
